Effective Advocacy in Kentucky:
A Practical Guide for Pediatricians

Presented by the KY AAP Policy Lab

Learning Objectives

1. Describe the key stages of the Kentucky legislative process and identify opportunities for physician engagement at each stage.
2. Utilize legislative tracking resources to monitor bills, review proposed legislation, and verify legislative actions and amendments.
3. Evaluate legislative proposals based on their impact on child health, alignment with organizational priorities, political feasibility, and opportunities for advocacy.
4. Develop a strategic advocacy approach that incorporates appropriate timing, policymaker engagement, coalition building, and interim legislative activities.
